ABOUT ME

I am currently a second-year student studying computer applications. I possess a fundamental understanding of programming languages such as C++, Python, and Java. I have a keen interest in delving deeper into software development, web technologies, and database management. I enjoy discovering new technologies and working on small projects to enhance my skills. I actively engage in coding activities and am enthusiastic about expanding my knowledge. My goal is to strengthen my technical abilities and establish a solid foundation for a future career in software development.

SKILLS

Python

Java

C++

Ms office
